dig deep!

Earth Sciences workshop for teachers

Presentations and workshops will be delivered by leading UWA scientists on the latest in geothermal energy, soil fauna, carbon sequestration, geology and more!

**when**

Thursday 8th and Friday 9th October 2009

**where**

Centre for Learning Technology, The University of Western Australia

**cost**

Government school teachers: no cost and a payment of $400.

Some assistance is available to support country teacher participation in this workshop – contact Jenny (6488 4281) or Bob (6488 1916) for details

Non-government teachers: cost $100

This includes morning teas, lunches and a breakfast (with guest speaker) at the UWA Club on the morning of Thursday 8th October.

**apply now**

Head to www.spice.wa.edu.au/events for more details. Places are definitely limited and will be allocated on a first-come basis with priority given to science teachers in government schools.

**Exciting developments that your students could get involved in!**

**The program**

Highlights of the program include:

- **presentations** from some of WA's leading scientists including a Premier's Fellow and a Mawson Medal winner

- **laboratory** activities run by dynamic first year geology coordinator Dr Mary Gee

- **information** about an exciting new schools project

- **Professor Bob Gilkes**, leading the Field Trip.

The program includes some of the best sessions from the 2008 Earth Science Days.

Presentations and workshops will be delivered by leading UWA scientists on the latest in geothermal energy, soil fauna, carbon sequestration, geology and more!
